Beth-Energy Mines Corp., Cambria Slope Mine #33, Ebensburg, PA; Notice of Negative Determination Regarding Application for Reconsideration

By an application dated November 8, 1994, Local #1368 of the United Mine Workers (UMW) requested administrative reconsideration of the subject petition for trade adjustment assistance (TAA). The denial notice was published in the **Federal Register** on November 16, 1994 (59 FR 59253).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) if it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or
- (3) if in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The investigation files show that the workers produced metallurgical coal until the mine closed in September, 1994. Some of the coal met steam coal specs and was sold to local utilities but this ceased in 1991.

The Department's denial was based on the fact that the increased import and contributed importantly test of the Worker Group Eligibility Requirements of the Trade Act were not met.

U.S. imports of coal have been negligible for the past four years—under one percent of U.S. production. There are no company imports of coal.

The preponderant portion of coal produced by the subject firm went (1) to affiliated Bethlehem steelmaking facilities whose workers are not under a worker certification and (2) to the export market. A decline in sales to the export market would not provide a basis for a worker group certification.

The Department would entertain a new petition when the workers at Bethlehem steelmaking facilities in Bethlehem, Pennsylvania, Burns Harbor, Illinois or Lackawana, New York become certified for TAA.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, D.C., this 15th day of December 1994.

Philips Lighting, Richmond, KY; Notice of Revised Determination on Reconsideration

On December 16, 1994, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the former workers of the subject firm. The notice will soon be published in the **Federal Register**.

Investigation findings show that the workers produced halogen and miniature lamps.

Other investigation findings show that the subject firm ceased production in July, 1994 and the remaining workers were laid off by November, 1994.

New findings on reconsideration show that the company has begun importing halogen and miniature lamps in November, 1994.

U.S. imports of halogen and miniature lamps increased absolutely in the twelve-month period from September, 1993 through August, 1994 compared to the same twelve-month period ending in August, 1993.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that the former workers of

Philips Lighting in Richmond, Kentucky were adversely affected by increased imports of articles that are like or directly competitive with the lamps produced at the subject firm. In accordance with the provisions of the Act, I make the following revised determination for workers of Philips Lighting in Richmond, Kentucky.

"All workers of Philips Lighting in Richmond, Kentucky who became totally or partially separated from employment on or after July 8, 1993 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."
